

# Side supports

In order to ensure peace of mind and peace of mind in view of a possible flood, MegaSecur offers supports to help you maintain the barrier on a wall or simply to facilitate its movement.

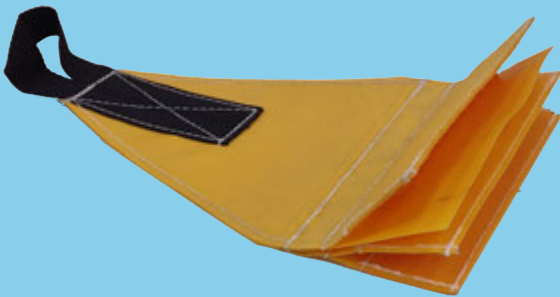

## MegaSecur

A Canadian designer, manufacturer and distributor, MegaSecur is the world leader in flood control solutions. In addition to its Water-Gate self-blocking flexible dam, it offers a pump system specially designed to help you control possible flooding.

The side supports are necessary to hold the water barrier securely against a straight wall. For the WL-26 category, it is recommended to have 4 retaining brackets to properly retain the end of the barrier on the right. These brackets are universal for all our models and sold in pairs for both the left and right side.

Lateral support with hook to retain the velvet seal of the fence

Lateral support with velor to retain the joint of hooks of the fence

Ideal method to retain the barrier on a straight wall
